Office Action Summary

Art Unit: 3617

### DETAILED ACTION

1. Claims 26-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 26 and 28 are improper Markush type claims, in that since the claimed elements of the group fail to "share a common utility" and fail "to share a substantial structural feature disclosed as being essential to that utility".

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 26-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Severence et al. in view of Murayama et al.

Severence et al. teaches the field of the invention, including a pair of phosphorescent bulbs/caps 22. Severence et al. fails to disclose the claimed material.

Murayama et al. teaches such a material, and further teaches application to buoys.

Art Unit: 3617

It would have been obvious to one of ordinary skill in the art at the time of the invention to form the caps of Severence et al. from a phosphorescent material as that taught by Murayama et al.

Such a combination would have been desirable at the time of the invention was made so as to provide for a buoy which will glow a substantial amount of time in the dark.

4. Papers relating to this application may be submitted to Technology Center 3600 by facsimile transmission. The submission of such papers by facsimile transmission must comply with the notice published in the Official Gazette, **1096 OG 30** (November 15, 1989). The Fax Center number is (703)-305-7687.

5. Any inquiry concerning this communication should be directed to Ed L. Swinehart whose telephone number is (703)-308-2566.

6. Any inquiry of a general nature or relating to the status of the application should be directed to the Technology Center 3600 receptionist whose telephone number is (703)-308-1113.
